## FAIRY TALES organic hair stories

Posted by Brigitte Segura on May 3, 2013 in Hair, the [FEEL-GOOD] series... | 0 comments

Get happily ever after hair for the wee ones and peace of mind for yourself with **Fairy Tales organic**. The brand offers natural hair products aimed at the younger set, but is effective even for the grown-ups. This exceptional line has formulated a natural solution for detangling hair and preventing further damage from a young age. The shampoo, conditioner, and detangler products are gentle enough to use on young children and safe for mothers with color treated hair.

Fairy Tales naturally caters to certain hair needs using the finest quality of products available – free from harsh chemicals, pesticides, and toxins, without parabens and sulfates. Desired silk-soft locks are in the palm of your hands with the **Super-Charge Detangling shampoo**. Loaded with Pro-Vitamins, aloe and jojoba oil the shampoo perfectly complements smoothness of the chamomile and cherry bark rich **Detangling conditioner**. For an instantly nourishing boost, the **Energizing Leave-in Conditioner** uses Passion Flower, Cherry Bark and wheat proteins to moisturize and soften even the most coarse, dry, and unruly hair. Moms know the last thing they want to deal with is frizzy hair laden with knots of every sort. This can help get a happy ending out of bath time for everyone involved with a little FAIRY TALES organic care.
