

GET A JUMP ON SUMMER CAMP CRITTERS

March 31, 2017 / by [Courtney Barnum](#) / [Leave a Comment](#)

Do your kids attend a sleep away camp in the summer? If so, then this post is for you. Fairy Tales Hair Care has products designed to repel lice, bugs, and bed bugs too!

SUMMER CAMP CRITTERS

I'm not saying that summer camps aren't clean, but bugs are something you don't always have control over. Now thanks for Fairy Tales you will. Read on to learn how to keep bugs at bay, naturally, and safely.

BUG BANDIT DEET FREE BUG SPRAY

Mosquitoes and horse flies are relentless buggers that can turn any summer excursion into a nightmare. Whether it's summer camp, or a family camping or fishing trip, you want your kids protected from those little blood suckers! Fairy Tales Bug Bandit Bug Repellent will do just that.

This non-toxic and pesticide free bug spray really will keep bugs away. I know because I use it too! It keeps away pesky mosquitoes, flies, gnats, and other biting insects, without harmful chemicals. It contains Citronella oil, Soybean oil, Cedar Bark, Peppermint, and Rosemary oils. My entire family will tell you that this stuff really works!

SLEEP-TITE™ BED BUG SPRAY

When I was a kid, I always thought that bed bugs was just something made up. Then I grew up, and realized they're nasty little critters. Fairy Tales Sleep-Tite spray will effectively keep away bed bugs (and kill their eggs) safely, and naturally. It's Soy, Dairy, and Nut FREE, but does contain GLUTEN.

ROSEMARY REPEL® LICE PREVENTION DAILY SHAMPOO

Cleanse your child's hair and protect them from lice at the same time. This shampoo is clinically proven to prevent head lice with natural ingredients, and organic herbs. Jojoba and Chamomile moisturize, hydrate, and soothe the scalp, while Rosemary, Citronella, Geranium, and Tea Tree Oil effectively repel lice. Free of sulfates, harsh chemicals, and toxins. Gluten, soy, dairy, and nut FREE.

I can vouch for Fairy Tales products. When I worked for a pediatrician, it's what he recommended to all of his patients for lice. It's what he also used on his own kids. It's number one recommended by doctors, school nurses, and moms since 1999.

WHERE TO BUY

To get any of these or other Fairy Tales products, head to their [website](#). Be sure to follow them on [Facebook](#), [Twitter](#), and [Instagram](#) too.
