Fairy Tales Hair Products:

We love Fairy Tales hair care products, they are our go-to brand for the kids. I use them because their shampoo deters from headlice which we all know is a huge problem in most grade schools these days. We have been using it since the kids started school and we have never had a problem with them. Their new Curly-Q line helps with unruly hair and detangling. Give the gift of tantrum-free hairstyling this holiday season with the Fairy Tales [Curly-Q collection](#) – a cult-favorite brand among moms, specializing in good-for-you children's hair care since 1999. The collection features a great-smelling

shampoo, conditioner and styling gel – all aiding in detangling unruly knots, defining curls and taming frizz! My 8-year-old hates getting her hair brushed so this helps a ton with keeping her hair manageable and less tangling for brushing. Makes a great stocking stuffer for the kids on your list.
