

8 Trendy Mosquito-Repelling Products You'll Actually Want to Use

Sunscreen? Check. Sunglasses? Got 'em. Change of clothes post-pool? Score! But what about protecting yourself against pesky summertime mosquito bites? Luckily, you don't have to carry around a stinky spray bottle of repellent to protect yourself from critters.

For your hair: **Fairy Tales Rosemary Repel Hair Spray**

VIA FAIRYTALESHAIRCARE.COM,

SHUTTERSTOCK Believe it or not, mosquitoes are craftier than you think. And if you're in areas where these bugs are rampant, they might even find a way to crawl into your hair and bite your scalp. Yikes! Before you head to a swampy area or hang out for hours on a lake, spritz some of this lightweight, non-sticky hairspray that adds a 'seal' of protection to strands. It's made with natural ingredients, including rosemary, peppermint, tea tree, and citronella. It even fights against head lice and nits too. [Ever wonder why you attract bugs?](#) Here's the deal.
