## FAIRY TALES HAIR CARE – HOW WE KEEP FALYNN’S CURLS LOOKING GREAT

When you find a shampoo and conditioner that both you and your kids love and it's safe and gentle, you stick with it and you share it with the world. People are always asking me about Falynn's hair and the truth is, we've been using Fairy Tales Hair Care for almost 2 years now and will never use anything else. Here's why...

## Lice, I Wouldn't Wish it on my Worst Enemy

About a year and a half ago, my 8 year old came home from school with a note that said that they believed she had lice. LICE?! It's our worst nightmare right? I'm getting itchy just thinking about it. We went through a ridiculous amount of over the counter treatments, electronic combs and whatever else we could find in the store and online. I literally went broke trying to stop it. We even went the natural route and tried the Listerine/vinegar remedy. And after trying that a few times, cleaning the house, throwing out a ton of stuff and having us all experience the horror that is lice more than once, I went online and started asking for help because I never wanted to experience that again. I was told by a few people that I should try the [Fairy Tales Rosemary Repel](#) line. While I had never heard of it, it seemed to have raving reviews, so I ordered it on Amazon that same day. My girls have used it ever since and best part of all, we haven't had another outbreak.

## Curly Q by Fairy Tales Hair Care

When I was contacted and asked to try out the [Fairy Tales Curly Q](#) line, I couldn't say yes fast enough. We were already HUGE supporters of the brand and when I read that the Curly Q line helped with tangles and frizz it was like my prayers had been answered yet again. Falynn's hair, as beautiful as it is, gets super tangled. Brushing her hair after bath time is a struggle which usually ends in tears and it hurts me so much that it hurts her. We have tried various detangling sprays and they just don't work plus they always leave her hair feeling sticky and gross.

## Good For You Natural Ingredients

**Fairy Tales Hair Care** is different. The Curly Q line helps detangle unruly knots, define curls and tame frizz and gently cleanses and hydrates curly or wavy hair. Natural quinoa and rice amino acids help define curls and improve manageability. Murumuru butter moisturizes for lasting hydration, frizz control and defining curls. Aloe nourishes and hydrates. It has an AMAZING pear basil scent and is sulfate, paraben, phthalate-free, gluten, soy, dairy and nut-free! And the results... check them out for yourself. I washed Falynn's hair, used a small amount of conditioner and was able to comb through it in minutes! There were no tears! I sprayed a little of the styling spray gel, scrunches the bottom and check out her beautiful mane!

Falynn is in love with her new shampoo! And while we will still switch back and forth between this one and the Rosemary Repel, we are Fairy Tales customers for life! If you are in the market for a new shampoo, visit [FairyTalesHairCare.com](https://www.fairytaleshaircare.com) and check out which one is best for your little one. You won't be disappointed.
